

20 THE BOYS AND THE GIRLS

© words and music Rod Boucher 1971 Adelaide South Australia

Male and female, Venus and Mars, boys and girls - the games we play that we fail to recognise in our own reactions and decisions. Human Beings are a strange mix, they can be crazy kind and cut-throat cruel. Choose caring.

V1 **E A**
Now what I'm about to tell to you
B
is a common tale but still too true.
E A
To the girls I'm talking mainly now
B E
about the boys, if you wanna know how.

E
They'll build you up with words of spice,
E
tell you tales all sweet and nice.
A
They'll lead you up a lovely path
E
with tender, words that make me laugh.
B
You nearly can't believe your ears,
A
you didn't know you had it for all those years.
E
But what the boys are really for
B E
is slightly different, that's for sure.

V2 **E** **A**
Its the game of the boys and the girls to me.

B
Now, look around you boys, you'll see,

E **A**
you're not the only one's to blame.

B **E**
The girls are also playin' the game.

E
They'll build you up and lead you on,

E
take you 'til you're too far gone.

A
"Big man, won't you scratch my back?"

E
"Love to honey, how about that?"

B
Tease you 'til you can take no more,

A
then smile and show you out the door.

E
Its a game as old as Adam and Eve.

B **E**
Tell you boys, it makes my poor heart bleed.
