*Late 20th Century songs written, recorded and sung by Christians in Australia and beyond.*

Released on cassette in 1995, the **ALL IN A DAYS WORK! Hatch 3** album contains songs for families to play and sing around the house, along the road, at the park, on holidays and in church gatherings. The 35 songs were mainly written by Gerry & Jo Holmes and Rod Boucher.

The **Menai Sessions** song collection was recorded by the Sydney based techno band IDEA in 1986. "Turn Up The Tapes" was a single record release on Powderworks label in 1984. The other 8 songs were never released officially to the public.

Thanks for connecting with the SOFHAL site in 2025. Wishing you a meaningful Christmas season filled with faith, hope and love.

Mal Graetz

The song collection was recorded by the 'Waterhole Mob' who were based at Malmsbury, Victoria. A number of the songs were used for the 'Year of the Family' primary schools project in the northern suburbs of Adelaide in 1995. 'Things My Family Does' was performed as a puppet play to the delight of students. HATCH 3 album has great songs for community singing.

The Menai recordings complement the 'Stone Sharpens The Blade' mini album and 'Now Is The Time' EP. My appreciation for techno music has grown as a result of processing IDEA's songs. There are some catchy tunes along with some challenging lyrics - 'hold on to the child inside', 'we've got love to burn anyway we turn', and, 'we're gonna be the odd one out'.
